

TV Distribution

Analysis of the English-Language Market

Published: March 28, 2019

Introduction

Use or distribution of MTM/OTM data is governed by your organization's client agreement and may require prior approval from CBC/Radio-Canada

This report looks at trends in the way consumers access TV, what products/services they are using, and how they bundle their services. It outlines user profiles for the various TV services which includes Cable TV, Satellite TV and Fibre Optic (IPTV). It also highlights Off-Air TV reception.

The Media Technology Monitor (MTM) incorporates a mixed-methodology approach which includes a phone survey and a follow-up online survey. The data from this report comes primarily from the phone portion of the survey unless otherwise noted.*
